BIG HAIRY AUDACIOUS GOAL

Creating An Education (For Success in C21st)
Distribution System

AKA

In Search of Entelechy ... Enabling Individuals to
Achieve Their Potential!

The Big Why

The world is changing rapidly ... no longer about "go to school, get exams and get a job"! New (true) education needs to reflect these rapid changes!

Our goal is to create the Education Distribution System to ensure Practitioners/Teachers can reach people looking to enjoy real quality of life (or QoL as we call it).

The Big HOW see over

The QoL Think Tank

The Research Body

A loose federation of independent individuals and organisations taking a stand for transforming education and the world of work.

Increasingly Think Tank is taking an active role in moving the British (European) Mind Set towards "doing Deals" or more scientifically "Creating Geometric Growth in Business!"

How can QoL Think Tank help you?

Can You Contribute to it?

Creativity Innovation and Enterprise

1 STEP in the Right Direction

If we encourage ... Trainers, Consultants, Coaches, Therapists et al to be trained to operate in the current Schools/Universities environment ... we will be seeding the new distribution system.

As more education projects come to us we need talented people we can trust to help deliver them.

Dare We Say It ...

It's time for us Brits to really learn how to SELL!

We have the ideas, we have the systems ... (our opinion) ... we really need to become Great Salespeople and tell the world about what we've got.

!!! It's a belief of ours ... the next/new generation of teachers (Educators) must be commercially aware - real people.

The Ivory Tower is Over.

Maybe we can expose your client base to the TOPLINE POV ... If we do, everyone will be out there "marketing their wares" AND we'll be creating real world educators ... comfortable in the world as it is TODAY.

Practicing What We Preach (Part I)

... One of our goals is to teach the British how to do deals and work together ...
Hence we've created

The Multiple Streams of Income Business School

A short 6 evening programme (over 6 weeks) for anyone really wanting to create a strategy to leave the Rat Race!

IT IS ALSO A MEANS FOR US TO WORK - IN PARTNERSHIP - WITH EDUCATORS WHO MAY BE INVOLVED IN OTHER PROJECTS WITH ASPECTS OF THE INTERNATIONAL QoL PROJECT.

! Educators with Independent Incomes ... Running Successful Businesses ... Working in Partnership with other Educators ... Able to Focus on Long Term Projects.

**MILLIONAIRE
EDUCATORS**

WILL MAKE TEACHING C-O-O-L!!

And attract new talent to this amazing profession!

**Ask about a local MSI Business School ... or perhaps
you'd like to sponsor one in your local area**

And ... the name for the New Educators?

We call them Entelechists ... professionals who work with Individuals and Organisations to enable them to experience more QoL and achieve their potential.

(Entelechy ... literally means Achieving Your Potential)

The Entelechy Integrated Training is our

Intensive programme for Education for Success in the C21st

Entelechists are the backbone of QoL's long term education distribution system.

Coaches, Trainers, Therapists, Business Owners, Managers, Social Enterprises and others are all waking up to the benefits of The Entelechy Integrated Trainings as fundamental Life and Business Skills training for Success in C21st. Ask about our next classes!

Practicing What We Preach (Part II)

The Inspiring Partnership

Our Own Organisational (Structure) for Success in the C21st

"Some day all Businesses (and Lives) will be run this way"

(Part of our way to teach Deal Making and Geometric Business Growth)

A flat marketing organisation for independent Entelechists to work alongside ... to enable them to do more of what they do.

As a result ... more good work ... reaches more people in the market place

AND Vitally

independent entelechists can enjoy working on TEAMS, a fundamental to most productive people.

Strictly by invitation only!! Could your organisation benefit within tIP?

Our Core Growth Principle - In Practice -

Current Joint Ventures/Strategic Alliances ... in the pipeline
